12. How have the beneficiaries reacted to the programme activities? What were the impacts of the project and different effects on women and men in the project?

The impact of the project with the reaction from the participants was on page 6 of the report printed and was distributed during the congress in Cape Town.

13. Outcome and Outputs of the project: What has your project achieved and what has changed?

The outcome of the project was that it has successfully trained 97 Church Leaders and for the first time in the country when large number of senior Pastors will gathered and be tested for HIV with media reporting on the same and at the same time have huge impact with thousands viewing the story online.

14. Evaluation

- 14.1 What were the results of evaluating the project?

The project has led to the discovery of the need and hunger for HIV communication in the Church in Lagos and among its leadership in particular. By extension the need for stigma reduction and discrimination can be well handle with the church involvement if better structures are laid. More importantly, is the importance of the communication in bringing about the reduction in HIV discrimination in communities this project is an eye opener to all participants as well as those that hear about it.

- 14.2 What were the challenges, difficulties, and/or failures in carrying out the project? Please explain how you addressed these issues.

One of the main challenges of the project was our inability to attract participation and church leaders from mainstream churches, like the Catholics, Anglican, Methodist and core Baptist, all efforts to achieve this was not successful simply because these churches are centrally controlled and hardly mix with others in fundamental issues. In overcoming this, we make sure that our publications and other messages reached their leadership as reference in their addressing the issue on HIV/AIDS and stigma in church.
